

12 October 2020

Mr Hayden Michell
The President of the Tennis Association of Trinidad and Tobago
National Racquet Centre
Orange Grove Road
Tacarigua

Dear Mr Mitchell

I am writing regarding the ITF Recognition of Coach Education systems. As you know the ITF, in conjunction with its Coaches Commission, established criteria and minimum standards for Coach Education systems, which were adopted by the ITF Board of Directors. These criteria, along with the coaching competencies agreed for the different levels of Coach Education, were put together to ensure quality standards in Coach Education systems worldwide and to allow the Coach Education systems of ITF member nations to be assessed by the ITF.

I am pleased to inform you that based on the criteria, and after undertaking an extensive review of the documents provided by the Trinidad and Tobago Tennis Association (TATT) on your Coach Education system, the ITF recognises that all of the criteria established by the ITF Coaches Commission for the Bronze level recognition have been met and that the TATT has established a coach education system up to Bronze level (self-sufficient up to CBI certification) that meets the quality standards set by the ITF.

As a result, the ITF agrees to formally recognise the Coach Education system of the TATT up to Bronze level for a four-year period until 31 December 2024.

TATT now has the right to use the ITF coaching logo on their coach education material/resources including your coach license cards (up to Bronze level). Please find attached a copy of this logo. In addition, we will send you a Certificate of Recognition.

I want to take this opportunity to congratulate the TATT on having their Coach Education system approved up to Bronze level by the ITF.

Yours sincerely,

Luca Santilli
Executive Director, Tennis Development
